About This Game

Daily 3D 360 Studio Broadcast at 6 pm PST!

GonzoVR is a real-world live VR social hangout app where you can watch and chat in real time with streamers and other viewers during scheduled broadcasts, collaboratively control a VR camera on an RC car, and interact with elements of the real world, including a really cool dog named Gonzo.

There are two kinds of broadcast:

3D 360 Studio Broadcasts: daily live streams with cool hosts

- Watch live scheduled broadcasts in 3D 360 VR with live streamers from our studio
- Speak voice to voice to the broadcaster and other viewers as an avatar or in chat
- Interact with arduino bots
- Watch videos of archived broadcasts
- Engage with AR markers

VRoommate: a constant VR livestream from a camera mounted on a small RC car that you can drive around to explore

- Collaboratively drive an RC car around the dev's living room
- Chat with other drivers
- Play with AR markers and buy treats for Gonzo

Studio Broadcasts happen at 6 pm PST every day! VRoommate is 24/7, so come check out our live VR any time!

Title: GonzoVR
